

How to Pack Stress Free for Your Next Getaway

To get more tips and to see what accessories I like to bring you can read my blog here -->

<https://goo.gl/WGVoza>

- Before your next getaway invest in a lightweight suitcase that you can carry-on. Check carry-on airline requirements
- Put outfits together and outfits you can mix and match
- Keep your travel liquids stocked - always have those items stocked up and ready to go, so you don't have to worry about last minute errands
- Don't bring more than three pairs of shoes
- Put an outfit in your carry on bag
- Take a photo of your ID or passport
- Grab an extra sweatshirt or a couple tees just in case
- Only bring accessories that you are really going to wear - here's what I love to wear --> <https://goo.gl/WGVoza>
- Roll your clothes, don't fold
- Check the weather of your destination the night before you leave and make last min adjustments
- Set a reminder on your phone to check into your flight 24 hours before you leave. Download the airlines app to easily check in and get a digital boarding pass and up to date flight info
- If you are arriving to your destination early, let your hotel know ahead of time, you usually can then check in right away
- When you pick up your phone the morning you leave, pack your charger right away
- Wear layers to the airport. Some flights are cold but then your destination could be hot
- It's ok to forget something! Once you get to your destination you can always pick up things you forgot. So just relax, pack, and enjoy your next getaway adventure!
