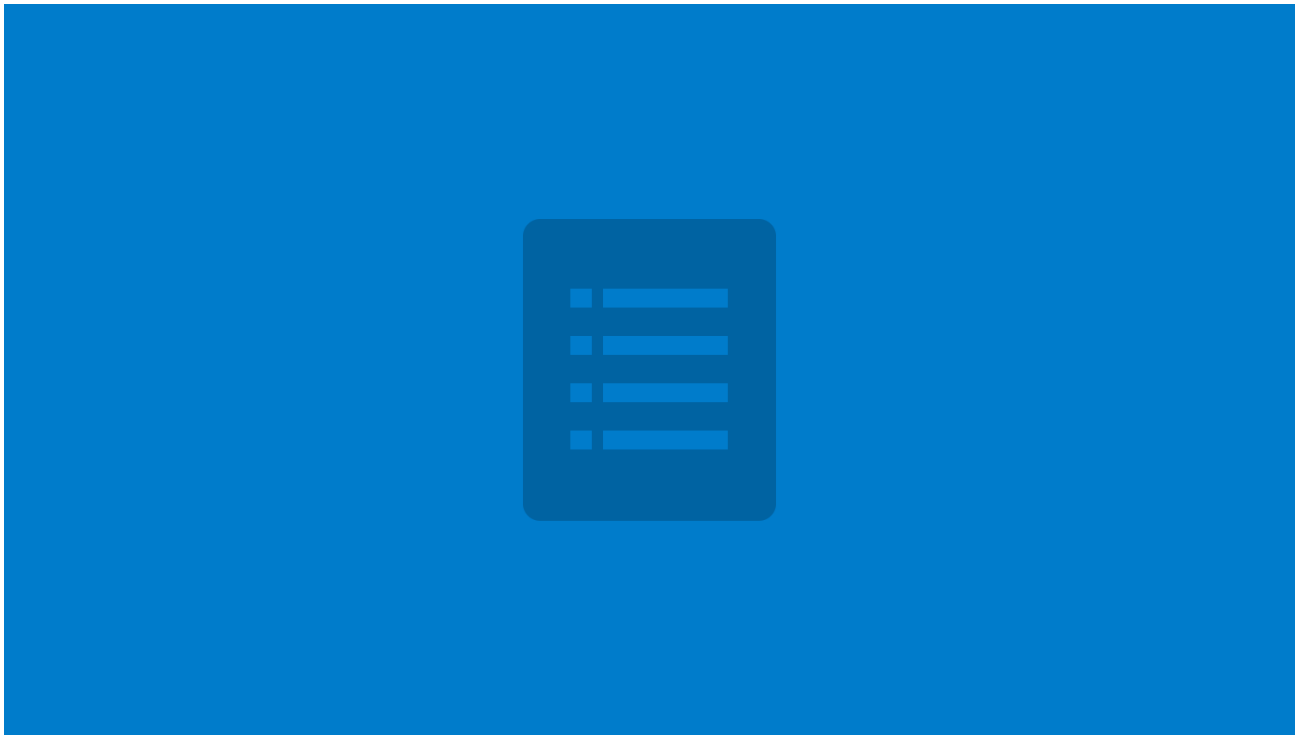
How to Use Checkli for Content Upgrades

Give your readers a free download (content upgrade) each time they read a new article on your blog. Here's how to do it using Checkli.



- [ ] First, make sure you have a Checkli Publisher account
- [ ] Second, make sure your checklists are branded with your logo, colors, and contact info

Option 1: Checkli PDF

- [ ] Create a new checklist
- [ ] Add a title and description that support your new blog post article
- [ ] When finished, click the PDF icon in the right side bar
- [ ] A PDF of your checklist should now be on your computer
- [ ] Upload the PDF to your blog
- [ ] Use your favorite email subscription software to give your Checklist PDF away for free

Option 2: Embed Your Checklists

- [ ] Create a new checklist
- [ ] Add a title and description that support your new blog post article
- [ ] Publish your checklist using the Publish button in the right sidebar
- [ ] Copy the embed code from the share page
- [ ] Paste the embed code anywhere on your new blog post article

- [ ] Track how many people view, save, and complete your checklist from your Checkli dashboard
