Keyword driven specification test

Keyword-driven testing : how to specify a keword

◯ the starting state of the system under test (SUT)

◯ the window or menu to start from

◯ the keys or mouse clicks to get to the correct data entry window

◯ the names of the fields to find and which arguments to enter¨

◯ the actions to perform in case additional dialogs pop up (like confirmations)

◯ the button to click to submit

◯ an assertion about what the state of the SUT should be after completion of the actions
