

50 Genius Instagram Hacks to Grow Your Brand

#InstaHacks Managing your Instagram account requires understanding why IG fans love the channel, knowing who's using it and figuring out how to create posts that attract looks, likes, comments and shares. And time... a lot of time. Fortunately, there are tools, strategies and resources to help maximize your time on Instagram so you have more growth, but don't have to spend more time.

Hashtags

1. **Hashtags rule!** Similar to Twitter (grandfather of the hashtag) hashtags rule on Instagram: its how users brand themselves and their interests, and how marketers target specific audiences.
 2. **30** hashtags are allowed on each Instagram post, unless you're already built an audience and following use minimum 5-6 on each post.
 3. **Find your ideal clients**, see what hashtags they're using, and start using the ones that are aligned with your brand.
 4. **Scout your competitors** or a similar brand and see what #s are (and aren't!) working for them.
 5. **Google** the top hashtags by topic for your target audience and service or product.
 6. **Branded hashtags** are unique #s you create for your product, service or campaign to use on your IG posts and can help boost your social media efforts.
 7. **Use key message #s in your IG post** then add #s targeting your ideal clients in a Comment on the post.
 8. **Do 30 #s look too spammy in your post?** Separate the bulk of your #s from your message by creating several lines with 1 emoji, period or dash, then add the rest of your #s.
