Things To Know After a Hurricane

Below are some information you should bear in mind after a hurricane.

\bigcirc	Listen to local officials for updates and instructions.
	Check-in with family and friends by texting or using social media.
	Return home only when authorities indicate it is safe.
	Watch out for debris and downed power lines.
	Avoid walking or driving through flood waters. Just 6 inches of moving water can knock you down, and one foot of fast-moving water can sweep your vehicle away.
	Avoid flood water as it may be electrically charged from underground or downed power lines and may hide dangerous debris or places where the ground is washed away.
	Photograph the damage to your property in order to assist in filing an insurance claim.
\bigcirc	Do what you can to prevent further damage to your property, (e.g., putting a tarp on a damaged roof), as insurance may not cover additional damage that occurs after the storm.
