Equifax Data Breach: 7 Things You Need to Do Right Now!

Equifax, a major credit bureau, just experienced a possible cyber attack and breach that could impact 143 million people. Here are 7 thing you can do right now to protect to immediately protect yourself from these cyber hackers.

◯ Check your credit report right now! http://creditkarma.com is simple, and free.

◯ Add Fraud Alerts to get notified anytime your credit changes.

◯ Ask your bank for daily email or text alerts that list everything you spent that day.

◯ Sign up for a 3rd party identity protection service like https://www.lifelock.com

◯ Verify your address with the post office and financial institutions.

◯ File your taxes EARLY so hackers can't steal tax returns.

◯ Freeze your credit so nothing can change on your credit report until you unfreeze it. Best for serious and immediate cases.
