Halloween Caramel Pretzel Bites Recipe

Below are recipes and step-by-step on how to make Halloween Caramel Pretzel Bites.

You will need:

- [ ] Pretzel Snaps
- [ ] Hershey Kisses
- [ ] Caramel Candy
- [ ] Orange and Black M&M Candy

Directions

- [ ] The first step is preparing the Caramel candies and Chocolate Kisses for assembly. Using a sharp knife, cut the caramel candy piece in half.
- [ ] Then use the palm of your hand to roll the two pieces of caramel into balls. For the kisses, use the knife to slice off the pointy top of the chocolate candy.
- [ ] This will give you just the right amount of chocolate for the pretzel bite. Each Halloween Caramel Pretzel Bite will use one Caramel ball and one Chocolate Kiss.
- [ ] For our Halloween Caramel Pretzel Bites, we made sure the caramel layer went on first so the pretty and colorful Orange and Brown M&M's would stand out against the chocolate.
- [ ] To assemble these tasty treats first take the caramel ball and gently press it onto the Pretzel Snap, flattening the caramel until it is slightly smaller than the pretzel itself.
- [ ] Then melt the Chocolate Kisses in the microwave for approximately 50 seconds with the Kisses bottom down/cut-side up.
- [ ] When you take the slightly melted Kiss out of the oven, press a single M&M onto the top as shown above.

- [ ] Finally, place the chocolate kisses into the freezer for 2-3 minutes so they will firm back up. Don't leave them in the freezer too long or the M&M will cloud up.
- [ ] Once the chocolate has cooled, use the tip of a knife to transfer the chocolate disc unto the caramel disc.
- [ ] Press down gently, the sticky caramel will grab unto the chocolate and they be firmly attached. You are done!
