How to Play the White Elephant Game

This Christmas game is great if you are celebrating with a large group. Save some cash, have some fun!

Gift Buying Instructions:

1. Decide if the guys and girls will play together (keep in mind the gifts guys may buy)
2. Decide if you will buy gifts (set a dollar amount) or re-gift something
3. Tell everyone to wrap their gift and keep what they bought a secret

Game Instructions:

4. Tear up a piece of paper for every person you have playing
5. Number each piece of paper and fold it to hide the number
6. Let each player pick a piece of paper
7. Who ever choose #1 goes first and can pick and gift they want
8. You must unwrap the gift, show everyone what you got
9. Then it's #2's turn. #2 can pick their own gift or steal someone else's gift
10. Repeat until the last person picks
11. After the last person picks their gift, the last steal is done by #1 (why, because they never got a chance to steal in the beginning)

Don't forget:

12. You can only steal the same gift, once during one round

13. Change up the rules however you see fit. Crazier the merrier!
