

Tips for enhanced catalog designing services

Catalogs are a great marketing tool. Here some effective tips followed by a typical graphic design company are explained.

- ☐ Product photography is crucial
- ☐ Brand identity must be maintained
- ☐ Complement design with content
- ☐ Design based on audience
- ☐ Use white space and right fonts
- ☐ Cover design is most important - Without an attractive front cover, you can't expect someone to open and look into the catalog.
- ☐ Pay layout must be carried out strategically
