Tips for enhanced catalog designing services

Catalogs are a great marketing tool. Here some effective tips followed by a typical graphic design company are explained.

◯ Product photography is crucial

◯ Brand identity must be maintained

◯ Complement design with content

◯ Design based on audience

◯ Use white space and right fonts

◯ Cover design is most important - Without an attractive front cover, you can't expect someone to open and look into the catalog.

◯ Pay layout must be carried out strategically
