## **Tips To Increase Your Energy**

Most people experience bouts of fatigue once in awhile, but you can take steps to guard against low energy.

## Spark your energy level with these strategies:

Have a positive attitude to maintain your enthusiasm
Avoid a sedentary lifestyle
Eat nutritiously to fuel your body with what it needs
Take a multi-vitamin
Take breaks throughout your day
Exercise
Get enough sleep
Practice meditation or yoga to enhance health, relaxation, and energy
Consider a short nap during the day
Limit stressful situations
