Tips To Increase Your Energy

Most people experience bouts of fatigue once in awhile, but you can take steps to guard against low energy.

Spark your energy level with these strategies:

Have a positive attitude to maintain your enthusiasm
Avoid a sedentary lifestyle
Eat nutritiously to fuel your body with what it needs
Take a multi-vitamin
Take breaks throughout your day
Exercise
Get enough sleep
Practice meditation or yoga to enhance health, relaxation, and energy
Consider a short nap during the day
Limit stressful situations
