21 Of The Best Multiplayer PS4 Video Games That Are Perfect For Playing With All Of Your Friends

It seems as though huge blockbuster games are coming out constantly, but shockingly enough, not many of them offer a fully immersive co-op experience where you and a few friends can get together and play through something more than a quick PvP deathmatch. To help you on your partnership quest, here are some of the best current Playstation 4 games you can play with your friends.
