

# How to Write the Perfect Meta Descriptions for SEO

Writing meta descriptions for SEO is important! If you want a higher click through rate from Google to your website, you need to master writing the perfect meta description.

- 1 Grab your keyword list and go to <https://seomofo.com/snippet-optimizer.html>
- 2 In a second browser tab, open the product or service page on your website you'll be writing the meta description for
- 3 Head back to <https://seomofo.com/snippet-optimizer.html> and start writing a draft of your meta description in the description box
- 4 As you write, you will see the character count. Make sure to keep your meta description under 156 characters so it doesn't get truncated in Google
- 5 Start to describe your product or service that will make someone want to learn more and visit your website.
- 6 Include your target keyword in the description at least once if you can (this gets bolded when searched on Google)
- 7 Include a call to action or highlight a benefit like, "Visit our website to learn more." or "Lifetime guarantee + fast shipping!". Think like a marketer!
- 8 When you have the perfect meta description, copy + paste to add to your website!
