Wedding Live Streaming Checklist

It's easy to live stream your wedding. Now all your loved ones can enjoy your big day, even if they can't be there!

- [ ] Download EventLive App from the App Store https://eventlive.app.link/get
- [ ] In the app, create a private link and share with your family and friends you choose to stream to.
- [ ] Pack a smartphone tripod (if using)
- [ ] Select a person that will hold the phone during the ceremony (unless using a tripod)
- [ ] Check the WiFi speed at the ceremony site. (You can ask your wedding coordinator for that. Use SpeedTest app)
- [ ] Make sure the smartphone with app is connected to the WiFi network or has an unlimited data plan.
- [ ] Make sure the smartphone has at least 2GB of free storage
- [ ] Make sure the smartphone is charged before the ceremony starts
