Photo Manipulation of an Element

- [ ] Explore the tools and techniques in various software in the Overview examples
- [ ] Practice photo editing techniques such as color adjustment, color balance, constrast and more (demonstration in class January 9, 2020). Upload ONE practice image from today. (100 points)
  - [ ] Make a drive folder "Photo Manipulation" and put all work inside
    Make a sub folder for stock photography inside this folder so the project is packaged up
- [ ] Friday, January 10-Choose your subject and make a small thumbnail idea inside your sketchbook (100 points)
  - [ ] Shoot OR collect Images (must be original-your own images OR sourced and referenced in your final piece reflection. List any/all URL's)
  - [ ] Extra Credit if you take a photograph of ANY mvhs interior / exterior shot and alter it in a very imaginative way
- [ ] Begin creating Manipulations
- [ ] Peer Check in January 13-16
- [ ] Final Project Due January 24
