

RV SETUP CHECKLIST

Remember to take your time

Three checks before you chock!

- ☐ 1. Check to make sure you can reach the water & electrical connections
- ☐ 2. Check to make sure your slides have enough room to clear obstacles
- ☐ 3. Check to make sure the RV is level left to right
- ☐ 4. Chock your tires
- ☐ 5. Disconnect trailer from tow vehicle
- ☐ 6. Level the trailer front to back
- ☐ 7. Deploy stabilizers
- ☐ 8. Connect to the water and electrical panel
- ☐ 9. Check inside for obstacles before operating slides
- ☐ 10. Deploy RV sides
- ☐ 11. Connect sewer hose
