Signs Of A Good Programmer

Programming software

- [ ] THE INSTINCT TO EXPERIMENT FIRST
  - [ ] Always ready to try & see if code works before bringing their problem to someone else.
- [ ] EMOTIONAL DETACHMENT FROM CODE AND DESIGN
  - [ ] Uses Code when it's useful and throw it away when it no longer serves purpose.
- [ ] EAGER TO FIX WHAT ISN'T BROKEN
  - [ ] Always tries to re-design frameworks in a better way with a better method
- [ ] ENCYCLOPEDIC GRASP OF THE PLATFORM
  - [ ] Solve problems they find to be difficult. Also, write about how they solved difficult problems.
- [ ] EXCITED BY FAILURE
  - [ ] They don't deliberately try to fail, they just feel instinctively that failure can be as beneficial to them.
