# Managing Remote Teams COVID-19 Crisis

Teams working remotely due to COVID-19 pandemic? Here are 5 vital tips for managing them successfully.

Leadership Team

☐ Establish a team that lead the remote employees the right way by documenting challenges, prioritizing issues, and finding solutions. It's also important to ensure clarity in the instructions and mandates

Communication Channel

☐ Setup formal and informal communication channels, depending on team size and type of work. Help your employees to better use of such channels to communicate properly and maintain smooth workflow.

Connection

☐ A major challenge of remote team management is keeping everyone in the loop.

Tool Stack

☐ Wile working remotely, minimize your tool stack and make access and operations easy,.

Cultural Changes

☐ Your employees should be resistance to this work culture change and the leaders need to ensure that the transition is smooth and things are transparent.
