# Delivering Remote PMO Services

Delivering Offsite Project Management Services With Zero Impact to Performance

Infrastructure

☐ Provide secure IT access points and video communication technology, to give the feeling of being just across the hall from the client.

Team Hubs

☐ Keep your team connected during self- isolation and work- from-home mandates With chat rooms, daily stand-ups, and regular check-ins.

Experience

☐ Work with a partner experienced in delivering remote solutions, providing you access to the best talent virtually when you need it.

Language

☐ Use video conferencing during meetings to help establish a presence and connection. Seeing and hearing non-verbal cues will help team members communicate better and combat isolation.

Organizational Knowledge

☐ Support team by sharing lessons learned, best practices. and knowledge. Successful remote teams are based on the strength Of their relationships and collaboration.

Robust Transitions

- [ ] Organize a thorough in-person transfer of activities prior to delivering any work offsite, solidifying strong relationships that will lead ultimately to greater success.
