

Pokemon FireRed and LeafGreen Kanto Pokedex

Locations of all 150(+1) Kanto Pokemon in Pokemon FireRed and LeafGreen Versions on the GameBoy Advance. Contains Story Spoilers. Contains the most common/easiest locations or requirements for obtaining each available Pokemon. Pokemon may be found in locations not listed. Information pulled multiple sources including Serebii.net

Encounter Rates are based off rarities on Serebii.net. Common means 35-100% chance. Uncommon means 15-35% chance. Few means 5-15% chance. Rare means 1-5% chance.

Pokemon breeding cannot occur until the player reaches the Sevii Islands. This is because breeding did not exist in the original Generation I games.

If a Pokemon has received an additional evolution in a Generation II or Generation III game they will not be able to evolve until receiving the National Pokedex. The evolution cutscene will occur if the conditions are met but the evolution will be stopped automatically. An example of this is Golbat requiring high friendship to evolve into Crobat.
