## **New Blog Post SEO Process**

This is more of an SEO guideline for new blog posts and articles. Please use your best judgement when implementing. Do not over stuff, abuse or perform any blackhat SEO techniques. If the article/post is good, people will link to and share it.

$\bigcirc$	Perform keyword research: http://checkli.com/s/597a2fe420b2a
	Naturally use keyword in title of post
$\bigcirc$	Use keyword as the file name of the featured image's file name
$\bigcirc$	Naturally use keyword in featured image alt tag
$\bigcirc$	Naturally use keyword in featured image caption
	Naturally use and bold keyword in first or second paragraph
	Use multiple image throughout post
	Naturally use variations of keyword in image file names, alt tags, and captions
