If you're thinking about selling your bootstrapped SaaS, you've probably spent some time thinking about & researching valuation and SaaS multiples. As you start to talk to potential buyers, it's super important to know how to evaluate both the financial aspect (does the buyer have the cash, etc.) as well as the details beyond the financial value of an exit.

If you have a team, what concerns do you have about them and their transition if you sell?

If you have a team, are you planning to compensate them in any special way as part of the sale?
