Merchant Settings' Setup

Click on the blue + icon, where it's displayed, for more information about a task.

- [ ] Click on the "Profile" icon on the top left and select "Merchant Settings"

- [ ] Setup the cron jobs.

  [Click here to watch the tutorial.](#)

- [ ] In "Site name" type in the name of your site. It will be displayed on top left under the logo.

- [ ] In "Send mail from name" type in the name you want to display to all outgoing messages.

- [ ] In "Send mail from e-mail" type in the email address to use with all outgoing messages.

- [ ] In "Tech e-mail (for cron reports)" type in the email address to automatically direct any errors related to the cron jobs. For example, it'd be your webmaster's email address, or your address, etc.

- [ ] In "Email(s) for error messages" type in the email address/es to automatically direct the errors that need your attention in the future (if any.)

- [ ] In "Forum URL for the "Help" menu section" insert the URL of your Forum. It will be displayed in the Members' area under the "Help" option. Leave it blank if you do not have a Forum yet.

- [ ] In "Helpdesk URL for the "Help" insert the URL of your Helpdesk. It will be displayed in the Members' area under the "Help" option. Leave it blank if you do not have a Helpdesk yet.

- [ ] In "System Currency" select the default currency to use with all Products. You can change the currency in a specific Package's record.

- [ ] Check "force" next to "HTTPS" to enforce secure connection. Make sure to have an SSL certificate active.
